Orthopaedics Exhibition visits Buderim

Our hospital will host the Australian Orthopaedics Association's *Travelling Exhibition of Orthopaedics* on Levels 1 and 3 of the main hospital from Thursday 5 April for two weeks. Patients and community members are invited to view the Exhibition.

The specialty of orthopaedics keeps our children 'in the game'; it puts a 'bounce' back into the hips and knees of the elderly; it 'keeps us moving'. The Exhibition celebrates the contribution of orthopaedics to the health and well-being of the Australian community.

Hundreds of orthopaedic procedures are performed in more than 300 Australian hospitals every day. Here at Buderim Private Hospital, we conduct around 1800 orthopaedic procedures each year which are performed by 14 different orthopaedic surgeons who have combined experience of more than 250 years.

Buderim Private Hospital General Manager, Wallis Westbrook, said "We have the expertise to perform day surgery as well as some of the most complicated joint replacements right here on the Sunshine Coast so many people from our local community have already benefited from many of the innovations showcased in the exhibition."

The exhibition includes information on youth sports injury prevention, the evolution of joint replacement, developments in the treatment of fractures and innovations such as 3D printing, robotics and customising implants during surgery. Display items include prosthetic models, surgical tools, x-rays and fixation devices.

Save the date - Men's Health Conference 2018

Save the date for our annual Men's Health GP CPD event which will be held on Saturday 28 July.

Invitations and programs will be distributed shortly so stay tuned for more details.

Please note that 40 Category 1 QI&CPD points have been applied for.

If you would like to request additional copies, please contact Melinda Steyn on 5430 3305 or melinda.steyn@uhealth.com.au

April Falls Prevention

In Autumn the leaves fall but why should you?!

April is National Falls Prevention Month - falls and falls-related injuries are serious health issues and are the leading cause of injury hospitalisation for older adults.

The good news is that just like any injury, there are strategies that can be employed to reduce the risk of falls. Given the multifactorial nature of falls, a multidisciplinary approach to assessment and management is vital. Here at Buderim Private Hospital, all professions have a role to play in falls prevention.

Check out our Ward 3A and Allied Health teams pictured in front of the falls prevention strategy tree they have created to raise awareness and provide education about this important issue.

Some of their top tips to patients to help prevent falls are:

- Free your home of hazards
- Wear your glasses and hearing aids
- Remove clutter from your home
- When you've got to go, get up slow
- Maintain good nutrition
- Wear well-fitting footwear
- Review medications
- Review walking aids

2018 Teddy Bear Fair

Your patients are invited to come along to our annual Teddy Bear Fair from 9am - 1pm on Sunday 20 May.

They can join us for a FREE day of fun, excitement and entertainment, and help us celebrate Buderim babies and children everywhere. There are loads of exciting activities, displays, prizes, and tours to enjoy.

If your patients are thinking about having a baby, the Teddy Bear Fair provides a great chance to find out about more about our maternity service. They will have the opportunity to speak with our midwives and obstetricians and tour our facilities.

For more information or to register for a maternity tour, visit www.buderimprivatehospital.com.au/teddy
