

The Sunshine Coast Private Hospital

Cindy Mackenzie Breast Cancer Program

Supporting Sunshine Coast families
affected by breast cancer

About us

The Sunshine Coast Private Hospital Cindy Mackenzie Program offers a range of complimentary support services to Sunshine Coast families affected by breast cancer.

The program was founded in 2007 in memory of Sunshine Coast mum Cindy Mackenzie who sadly lost her battle with breast cancer aged 39.

Since September 2015, The Sunshine Coast Private Hospital has proudly administered the program. We are committed to continuing to provide support to Sunshine Coast breast cancer sufferers and their families as they undergo treatment for breast cancer. The program is available to Sunshine Coast residents diagnosed with breast cancer.

Our services

We provide the following assistance:

Family assistance – this service is aimed at helping families with their day-to-day needs and is designed to adapt to each family's individual circumstances.

Clinical services and education – this range of services aims to provide expert education for both individuals and families, as well as clinical services, including access to our new lymphoedema clinic.

Something special – this range of support services includes our 'Memory Maker' program and other special activities which are designed to help create positive and long lasting memories during what is a very difficult time.

We have helped hundreds of Sunshine Coast families and we'd like to help you, too. Please give us a call or scan the QR code below to visit our website for more information and to access services.
